

CARDIAC SPECT

MYOCARDIAL PERFUSION IMAGING

Anterior Wall Ischemia

NRAD, Nassau Radiologic Group, P.C., is pleased to offer Cardiac SPECT Myocardial Perfusion Imaging (MPI) and has provided this service to the community since 1984. Cardiac SPECT MPI provides early and accurate non-invasive testing for the detection and management of coronary artery disease.

INDICATIONS:

- ❖ Coronary Artery Disease
 - Diagnosis
 - Assessment of Severity
 - Risk Stratification and Prognosis
 - Myocardial Viability
 - Follow-up after Revascularization

CPT CODES:

78452—Dual Isotope

BENEFITS:

- ❖ Examines coronary perfusion during stress (exercise or pharmacologic) to allow accurate evaluation of physiologic demands upon the heart
- ❖ Does not require iodinated (CT) contrast, eliminating the risk of this type of contrast reaction
- ❖ Does not interfere with implanted pacemakers (as does MRI), allowing evaluation of these patients

If you have a patient who may be a candidate for Cardiac SPECT MPI, please call us at 516.222.2022

Our comfortable and convenient state-of-the-art facilities that perform Cardiac SPECT MPI are available in

Garden City ❖ Lake Success
